

I just want to appeal to the FCC, and express my concern over the possibility of losing k-love radio. K-love is very important to me, and I know many others that have come to benefit from the radio station. In this current era of road rage, I think that it is very important for people to be able to tune into a radio station that is upbeat, and tries to bring out the best in people. Contrast that with much of the trash that percolates out of much of the mainstream media. If K-love were taken off the air, our airwaves would lack the diversity so very needed in our democracy.

Thank You,
